Why Legal.io

Quality

Our team of experienced legal recruiters conducts a tech-enabled, targeted search for each role. We only present a limited number of highly qualified candidates to our clients.

Speed

We typically present and place candidates within 5 - 10 business days of a confirmed Scope of Work, and routinely support more time-sensitive business needs.

Cost

By leveraging our talent platform, community, and data we are able to deliver superior results for our clients, at rates that are often 15% to 20% lower than traditional staffing companies.

Service

We strive to make every interaction with our team quick, transparent, and seamless, and aim to be a trusted vendor that is friendly, non-intrusive and easy to work with.

Diversity

We take pride in our key role in supporting our clients' D&I programs. Since 2019, 64% of the legal professionals we placed were women and 42% were diverse candidates.

Community

We take a long-term view to the relationships we build, acting as a resource for legal professionals in our network and support them throughout their legal career.

Flexibility

Legal.io provides its clients with the ability to ramp up and down as business needs require, and is able to support predictable and less predictable workloads.

Expertise

The depth of our network allows us to holistically serve the needs of our customers across a wide variety of roles, from attorneys to legal operations.
